INDEX OF SUBJECTS

A

Acromegaly. — Studies in . . . VII. The microscopical structure of the adenomas in acromegalic dyspituitarism (fugitive . . .) (*Bailey and Cushing*) - 545

Adenosarcoma. — A study of the histopathology of the so-called . . . of swine (*Feldman*) - 125

Agglutinin. — The differentiation between infection and immunity by serum . . . analysis (*Huddleson*) - 616*

Amniotic fluid. — The effects of . . . on serous surfaces (*Warren*)- - - - - 626*

Angioma racemosum venosum. — . . . Report of a case (*Buckley*) - - - 245

Appendicular mucosa. — Carcinoids (argentaffin-cell tumors) and nerve hyperplasia of the . . . (*Masson*) - 181

Argentaffin-cell tumors. — Carcinoids (. . .) and nerve hyperplasia of the appendicular mucosa (*Masson*) - 181

Arterial supply. — The . . . of the kidney in nephritis and its relation to the clinical pictures (*Ritter and Baehr*) - - - - - - - - - - - - - - - - 632*

Arteries. — Study of . . . in non-suppurative diseases of the kidneys (*Barker*) - 631*

Arteriosclerosis. — The relation of intravascular pressure to . . . (*Moschocowitz*) - 645*

B

B. Welchii. — An experimental study of the action of . . . toxin on bone marrow (*Torrey and Kahn*) - 621*

Bacteriophage. — Observations on the intestinal . . . in the specific infectious diseases (*Cowie and Poncher*) - - - - - - - - - - - - - - - - - 620*

Bacteriophagy. — Is lysis of bacteria an essential part of the phenomenon of . . . (*Bronfenbrenner and Heller*) - - - - - - - - - - - - - - - - - 622*

Bacteriotropin. — On the mechanism of opsonin and . . . action. I. Experiments with acid-fast bacteria (*Mudd, Lucké, McCutcheon and Strumia*) - 617*

Bilharziasis. — The pathology of . . . (*Hutchison*) - - - - - - - - - - - - 1

Black tongue. — A study of the tissue changes in experimental . . . of dogs compared with similar changes in pellagra (*Denton*) - - - - - - 341

Blood. — Observations on . . . incubated under abnormal conditions (*Parker and Rhoads*) - 353

Blood vessels. — Tumors and malformations of the . . . of the central nervous system (*Bailey*) - 651*

Bloods. — Observations on incubated normal . . . (*Rhoads and Parker*) - 271

Bloods. — Some observations on incubated leukemic . . . (*Parker and Rhoads*) - 167

* Abstract of paper presented at the meeting of the American Association of Pathologists and Bacteriologists held at Washington, D. C., May 1, 2, and 3, 1928.

Bone marrow. — An experimental study of the action of B. welchii toxin on . . . (*Torrey and Kahn*) - - - - - - - - - - - - - - - - - - 621*

Bone marrow. — A malignant tumor simulating . . . (*Warren*) - - - - - 51

Bones. — Studies on the . . . in avian rickets. I. Bone lesions in chickens deprived of the antirachitic factor after five weeks of normal growth (*Nonidez*) - 463

C

Calcification. — . . . of the suprarenal gland (*Seligman*) - - - - - - - - - 457

Carcinoids. — . . . (argentaffin-cell tumors) and nerve hyperplasia of the appendicular mucosa (*Masson*) - - - - - - - - - - - - - - - - - - 181

Carcinoma. — Primary . . . of the liver: two cases in cattle (*Feldman*) - - 593

Carotin. — Studies on lipochromes. I. The reaction of animals to the presence of . . . (*Connor*) - 227

Carotin. — Studies on lipochromes. II. The identification of . . ., xanthophyll and associated lipoids in tissues (*Connor*) - - - - - - - - 235

Cell wall. — Aqueous-lipoidal phase reversal in the . . . of 'S' and 'R' bacterial forms: its bearing on theories of electrical P. D. in suspension stability (*Mellon*) - 619*

Central nervous system. — Tumors and malformations of the blood vessels of the . . . (*Bailey*) - 651*

Cervix uteri. — The . . . as a focus of infection in chronic arthritis (*Famulener and Matthews*) - 629*

Chorionepithelioma. — Concerning ectopic . . . Report of two cases (*de Zalka*) - 59

Chronic arthritis. — The cervix uteri as a focus of infection in . . . (*Famulener and Matthews*) - 629*

Circulation. — A study of the . . . in the normal and pathologic kidney with roentgenographic visualization of the arterial tree, including the glomeruli (*Graham*) - 17

Circulation. — The . . . of blood through the spleen pulp (*MacNeal*) - - 645*

Coarctation. — Statistical study of the causes of death in 200 cases of . . . (adult type) (*Abbott*) - 644*

Connective tissue. — Chemical contrasts between collagenous and reticular . . . (*Foot*) - 525

Cornea. — A dermoid of the . . . in a guinea pig (*Brunschwig*) - - - - - 371

Coronary. — An inflammatory basis for . . . thrombosis (*Boyd*) - - - - - 159

Corpora libera. — . . . in the tunica vaginalis testis (*Meyer*) - - - - - - - 445

Cyst. — An epithelial . . . of the hypophysis (*Fulstow*) - - - - - - - - - 87

Cystitis cystica. — The etiology and pathology of pyelitis cystica, ureteritis cystica and . . . (*Morse*) - - - - - - - - - - - - - - - - - - - 33

D

Dermoid. — A . . . of the cornea in a guinea pig (*Brunschwig*) - - - - - - 371

Diphtheria cultures. — Study on longevity of . . . (*Calhoun and Albert*) - 622*

E

Ectopic chorionepithelioma. — Concerning . . . Report of two cases (*de Zalka*) - 59

Electrical P. D. — Aqueous-lipoidal phase reversal in the cell wall of ' S' and 'R ' bacterial forms: its bearing on theories of . . . in suspension stability (*Mellon*) - 619*

Endothelium. — The phagocytic activity of the vascular . . . of granulation tissue (*McJunkin*) - 587

F

Fibrosarcoma. — . . . of the pleura. Report of a case (*MacMahon and Mallory*) - 387

Filtration. — Some points on the mechanism of . . . by the spleen (*Robinson*) - 309

G

Glomerulonephritis. — Experimental . . . produced by intrarenal reactions (*Long and Finner*) - 571

Glomerulonephritis. — Experimental . . . produced by the tubercle bacillus (*McGregor*) - 633*

Glomerulonephritis. — Experimental subacute . . . produced by intrarenal tuberculin reactions (*Long and Finner*) - - - - - - - - - - - 634*

Glomerulonephritis. — General discussion of . . . nephrosis and renal arteriosclerosis (*Bell*) - 638*

Granulation tissue. — The phagocytic activity of the vascular endothelium of . . . (*McJunkin*) - 587

Guinea pig. — A dermoid of the cornea in a . . . (*Brunschwig*) - - - - - - 371

H

Heart. — Spontaneous rupture of the . . . (*Buckley*) - - - - - - - - - - - - 249

Hemangioma. — Primary multiple . . . of the spleen with multiple liver metastases (*Wright*) - 507

Hodgkin's disease. — Experimental inoculation of chickens with lymph nodes of . . . (*L'Esperance*) - 622*

Hog cholera. — The blood in . . . (*Lewis*) - - - - - - - - - - - - - - - - - 626*

Hypophysis. — An epithelial cyst of the . . . (*Fulstow*) - - - - - - - - - - 87

I

Immunity. — The differentiation between infection and . . . by serum agglutinin analysis (*Huddleson*) - 616*

Incubated. — Observations on blood . . . under abnormal conditions (*Parker and Rhoads*) - 353

Incubated. — Observations on . . . normal bloods (*Rhoads and Parker*) - 271

Incubated. — Observations on . . . tissues and exudates (*Rhoads and Parker*) - 375

Infection. — The differentiation between . . . and immunity by serum agglutinin analysis (*Huddleson*) - 616*

K

Kidney. — A study of the circulation in the normal and pathologic . . . with roentgenographic visualization of the arterial tree, including the glomeruli (*Graham*) - 17

Kidney. — Skeletal metastases in malignant tumors of the . . . (*Levin*) - 631*

Kidney. — Two unusual tumors of the . . . (*Plaut*) - - - - - - - - - - 630*

Kidneys. — Correlated gross, microscopic and clinical observations upon 160 consecutive pairs of . . . (*Davis*) - - - - - - - - - - - - - - - - - 637*

Kidneys. — Study of arteries in non-suppurative diseases of the . . . (*Barker*) - 631*

L

Leiomyosarcoma. — . . . of the spleen in a bovine (*Feldman*) - - - - - - 139

Leukemic. — Some observations on incubated . . . bloods (*Parker and Rhoads*) - 167

Lipochromes. — Studies on . . . (*Connor*) - - - - - - - - - - - - - - - - 650*

Lipochromes. — Studies on . . . I. The reaction of animals to the presence of carotin (*Connor*) - 227

Lipochromes. — Studies on . . . II. The identification of carotin, xanthophyll and associated lipoids in tissues (*Connor*) - - - - - - - - - - - - 235

Lipochromes. — Studies on . . . IV. The nature of the pigments in certain organs (*Connor*) - 293

Lipoids. — Studies on lipochromes. II. The identification of carotin, xanthophyll and associated . . . in tissues (*Connor*) - - - - - - - - - 235

Liver. — Primary carcinoma of the . . . two cases in cattle (*Feldman*) 593

Liver. — Sarcomas of the . . . (*Scott and Reinhart*) - - - - - - - - - - - - 651*

Lung. — Reticulum in the . . . in post-influenzal organization (*Callender*) 648*

Lymph nodes. — Generalized reticular cell sarcoma of . . . associated with lymphatic leukemia (*Richter*) - - - - - - - - - - - - - - - - - - 285

Lymphatic leukemia. — Generalized reticular cell sarcoma of lymph nodes associated with . . . (*Richter*) - - - - - - - - - - - - - - - - - - 285

M

Macacus rhesus. — The pathology of experimental yellow fever in the . . . I. Gross pathology (*Hudson*) - - - - - - - - - - - - - - - - - - 395

Macacus rhesus. — The pathology of experimental yellow fever in the . . . II. Microscopic pathology (*Hudson*) - - - - - - - - - - - - - - - 407

Macacus rhesus. — The pathology of experimental yellow fever in the . . . III. Comparison with the pathology of yellow fever in man (*Hudson*) - 419

Malignancy. — The early diagnosis of . . . (*MacCarty*) - - - - - - - - - 653*
Meningiomas. — Tissue culture of intracranial tumors with a note on the . . . (*Kredel*) - 337
Mercuric chloride. — Human . . . poisoning by intravenous injection (*Harmon*) - 321
Metadysentery. — . . . with remarks on certain groups of intestinal bacteria (*Castellani*) - 649*
Mexican typhus. — Contribution to the pathology and etiology of . . . (*Mooser*) - 652*
Microglia. — A method of staining oligodendroglia and . . . (combined method) (*Penfield*) - 153
Mitochondria. — . . . in experimental acute nephritis (*Moore*) - - - - - 636*
Muscle hemoglobin. — . . . in human autopsy material (*Woodruff and Whipple*) - 75
Myocardial degenerations. — . . . in yellow fever (*Cannell*) - - - - - - - 431

N

Neoplasms. — Multiple primary . . . in lower animals. Report of a case (*Feldman*) - 497
Nephritis. — The arterial supply of the kidney in . . . and its relation to the clinical pictures (*Ritter and Baehr*) - - - - - - - - - - - - - - - 632*
Nephritis. — Mitochondria in experimental acute . . . (*Moore*) - - - - - 636*
Nephrosis. — General discussion of glomerulonephritis . . . and renal arteriosclerosis (*Bell*) - 638*
Nephrosis. — . . . with glomerulonephritis (case report) (*Warwick*) - - - 632*
Nerve hyperplasia. — Carcinoids (argentaffin-cell tumors) and . . . of the appendicular mucosa (*Masson*) - - - - - - - - - - - - - - - - - - - 181
Nervus acusticus. — Observations on the histology of the tumors of the . . . (*Rhoads and Van Wagenen*) - - - - - - - - - - - - - - - - - - - 145
Neuroglia. — Staining fibrillary . . . in formalin-fixed material (*Davidoff*) 493

O

Oligodendroglia. — A method of staining . . . and microglia combined method) (*Penfield*) - 153
Opsonin. — On the mechanism of . . . and bacteriotropin action. I. Experiments with acid-fast bacteria (*Mudd, Lucké, McCutcheon and Strumia*) - 617*
Osteoblastomas. — Two . . . not connected with bone, histologically identical with osteogenic sarcoma, and clinically benign (*Rhoads and Blumgart*) - 363

P

Pellagra. — A study of the tissue changes in experimental black tongue of dogs compared with similar changes in . . . (*Denton*) - - - - - - - 341
Peritonitis. — Intra- and supravital studies of fixed and circulating cells in . . . (*Steinberg*) - 627*

Phagocytic activity. — The . . . of the vascular endothelium of granulation tissue (*McJunkin*) - 587

Pigments. — Studies on lipochromes. IV. The nature of the . . . in certain organs (*Connor*) - 293

Pleura. — Fibrosarcoma of the . . . Report of a case (*MacMahon and Mallory*) - 387

Poisoning. — Human mercuric chloride . . . by intravenous injection (*Harmon*) - 321

Poliomyelitis. — The histopathology and bacteriology of experimental . . . in the monkey (*Rosenow*) - 642*

Potassium iodide. — The effect of feeding . . . on the proliferative activity of the thyroid gland in guinea pigs (*Rabinovitch*) - - - - - - - - - 601

Potassium iodide. — The effect of the oral administration of . . . and thyroid substance on the mitotic proliferation and structure of acini in the thyroid gland in guinea pigs (*Gray and Loeb*) - - - - - - - - - 257

Pyelitis cystica. — The etiology and pathology of . . . ureteritis cystica and cystitisa cystica (*Morse*) - 33

R

Renal arteriosclerosis. — General discussion of glomerulonephritis, nephrosis and . . . (*Bell*) - 638*

Resorcin. — The . . . flocculation test for activity of tuberculosis (*Baylis and MacNeal*) - 624*

Reticulum. — . . . in the lung in post-influenzal organization (*Callender*) 648*

Rheumatic nodules. — Experimental subcutaneous . . . (*Clawson*) - - - 565

Rheumatic nodules. — **The** . . . (*Clawson*) - - - - - - - - - - - - - - - - - 629*

Rickets. — Studies on the bones in avian . . . I. Bone lesions in chickens deprived of the antirachitic factor after five weeks of normal growth (*Nonidez*) - 463

Roentgenographic visualization. — A study o the circulation in the normal and pathologic kidney with . . . of the arterial tree, including the glomcruli (*Graham*) - 17

Rupture. — Spontaneous . . . of the heart (*Buckley*) - - - - - - - - - - - 249

S

Sarcoma. — Generalized reticular cell . . . of lymph nodes associated with lymphatic leukemia (*Richter*) - - - - - - - - - - - - - - - - - - - 285

Sarcomas. — . . . of the liver (*Scott and Reinhart*) - - - - - - - - - - - 651*

Schistosomiasis. — Studies in the pathology of . . . in Porto Rico (S. mansoni) (*Lambert*) - 630*

Spleen. — Leiomyosarcoma of the . . . in a bovine (*Feldman*) - - - - - - 139

Spleen. — Primary multiple hemangioma of the . . . with multiple liver metastases (*Wright*) - 507

Spleen. — Some points on the mechanism of filtration by the . . . (*Robinson*) - 309

Spleen. — The circulation of blood through the . . . pulp (*MacNeal*) - - 645*
Spleen. — The venous drainage of the . . . (*Robinson*) - - - - - - - - - 646*
Staining. — A method of . . . oligodendroglia and microglia (combined method) (*Penfield*) - 153
Staining. — . . . fibrillary neuroglia in formalin-fixed material (*Davidoff*) 493
Streptococci. — Cellular response in rabbits to repeated injections of non-hemolytic . . . (*Nye, Parker and Seegal*) - - - - - - - - - - - - - - - 628*
Suprarenal gland. — Calcification of the . . . (*Seligman*) - - - - - - - - - 457
Suprarenal gland. — Immunological studies in relation to the . . . (*Perla and Marmorston-Gottesman*) - 620*
Swine. — A study of the histopathology of the so-called adenosarcoma of . . . (*Feldman*) - 125
Syphilis. — Serological discord in latent and treated . . . (*Sheplar and Lyons*) - 615*

T

Thrombosis. — An inflammatory basis for coronary . . . (*Boyd*) - - - - 159
Thyroid gland. — The effect of feeding potassium iodide on the proliferative activity of the . . . in guinea pigs (*Rabinovitch*) - - - - - - - - 601
Thyroid gland. — The effect of the oral administration of potassium iodide and thyroid substance on the mitotic proliferation and structure of acini in the . . . in guinea pigs (*Gray and Loeb*) - - - - - - - 257
Thyroid glands. — Aberrant . . . (*Leech, Smith and Clute*) - - - - - - - - 481
Thyroid glands. — Aberrant . . . (*Smith and Leech*) - - - - - - - - - - 651*
Tissue cultures. — The influence of vitamine B and substances contained in blood on the lag phase of . . . of the chick spleen (*Hecker*) - 626*
Tissues. — Observations on incubated . . . and exudates (*Rhoads and Parker*) - 375
Tubercle bacilli. — The fate of . . . in various organs of the rabbit (*Lurie*) - 624*
Tubercle bacillus. — Experimental glomerulonephritis produced by the . . . (*McGregor*) - 633*
Tuberculin. — Experimental glomerulonephritis produced by intrarenal . . . reactions (*Long and Finner*) - - - - - - - - - - - - - - - - - - 571
Tuberculin. — Experimental subacute glomerulonephritis produced by intrarenal . . . reactions (*Long and Finner*) - - - - - - - - - - - - - 634*
Tuberculosis. — The resorcin flocculation test for activity of . . . (*Baylis and MacNeal*) - 624*
Tularemia. — Early visceral lesions of . . . (*Simpson*) - - - - - - - - - 629*
Tularemia. — The pathologic anatomy of . . . in man (*Goodpasture and House*) - 213
Tumor. — A malignant . . . simulating bone marrow (*Warren*) - - - - - 51
Tumors. — Observations on the histology of the . . . of the nervus acusticus (*Rhoads and Van Wagenen*) - - - - - - - - - - - - - - - - 145
Tumors. — Skeletal metastases in malignant . . . of the kidney (*Levin*) - 631*

Tumors. — Tissue culture of intracranial . . . with a note on the meningiomas (*Kredel*) - 337
Tumors. — Two unusual . . . of the kidney (*Plaut*) - - - - - - - - - - - 630*
Tunica vaginalis testis. — Corpora libera in the . . . (*Meyer*) - - - - - - 445

U

Ultraviolet. — The biological action of radiant energy. I. . . . (*Whitmore*) - 650*
Uranyl nitrate. — Experimental study of acquired resistance of the rabbit's renal epithelium to . . . (*Hunter*) - - - - - - - - - - - - - - 636*
Ureteritis cystica. — The etiology and pathology of pyelitis cystica . . . and cystitis cystica (*Morse*) - 33

V

Viruses. — Some general aspects of pathological conditions caused by filterable . . . (*Rivers*) - 91
Viruses. — Studies on the antigenic properties of ultramicroscopic . . . (*Schultz*) - 617*
Vitamine B. — The influence of . . . and substances contained in blood on the lag phase of tissue cultures of the chick spleen (*Hecker*) - - - 626*

X

Xanthophyll. — Studies on lipochromes. II. The identification of carotin . . . and associated lipoids in tissues (*Connor*) - - - - - - - - - - - - - 235

Y

Yellow fever. — Myocardial degenerations in . . . (*Cannell*) - - - - - - 431
Yellow fever. — The pathology of experimental . . . in the macacus rhesus. I. Gross pathology (*Hudson*) - - - - - - - - - - - - - - - - - 395
Yellow fever. — The pathology of experimental . . . in the macacus rhesus. II. Microscopic pathology (*Hudson*) - - - - - - - - - - - - - 407
Yellow fever. — The pathology of experimental . . . in the macacus rhesus. III. Comparison with the pathology of . . . in man (*Hudson*) 419
